

FOAM SPILL BERM INSTRUCTIONS

The AIRE Environmental Foam Spill Berm Is one of the quickest and easiest mini spill berms to set up. It ships fully constructed. It also comes in a wide range of sizes to fit your needs. Foam Spill Berm walls don't allow it to fold down as tightly as some of our other mini spill berms, but they offer a more robust roll-in-roll-out barrier.

WHAT YOU NEED TO KNOW

SITE PREP

1. Clear any debris from the deployment area.

DEPLOYMENT

1. After removing the berm from its packaging, unfold the berm.
2. Deploy the berm.

SUGGESTIONS

1. Line the Foam Spill Berm with AIRE Environmental Sorbent Pads. They will soak up any spills that occur within the pad, making cleanup quicker and easier.
2. Carefully place objects into the berm. Dropping heavy objects into it may compromise the fabric.

RECOMMENDED PRODUCTS

Mini Spill Kit

Sorbent Pads

Quick Snap Foam Berm

Duck Pond Berm
